# Memorandum

**To:** Honorable Mayor and City Council

**From:** Daniel Boggs, P.E., City Engineer

**Date:** December 5, 2013

**Re:** **2014 SIDEWALK PROGRAM SCOPE**

---

The sidewalk inspection progress thus far is summarized as follows:

| | |
|---|---|
| Total City Parcels for Inspection | 1,360 |
| Parcels Inspected in 2012 | 62 |
| Parcels Inspected in 2013 | 250 |
| | |
| Total Remaining Parcels to Inspect | 1,048 |

This parcel count includes parcels in the Wolfe Martin, Oak Ridge, Twin Creeks, Meadowbrook, Stonebrook, Gaarde, Stoner Plaza, Hobbie, Butler's (Bryant Court), Crestview and Candlestick Additions which either have relatively new sidewalks, or were not required to install sidewalks when the area was originally constructed.

The 250 parcels inspected last summer (2013), was a manageable number of parcels to inspect for the available City staff. To maintain manageable progress, it is suggested that the following area of the community be inspected this coming spring:

Remaining NW
Remaining SW Excluding Stonebrook and
Meadowbrook but including Twin Creeks
NE Excluding Gaarde, Crestview and
Candlestick Additions, but including the
Wolfe-Martin and Hobbie Additions

This would encompass approximately 500 parcels to inspect.
