RPT-PCPK-3.0	This quote is for the Necessary Upgrades to the City of Mount Vernon's Outdoor Warning Sirens for Two-Way Status Monitoring.			
	Whelen Sirens Upgrade: Whelen Sirens with the E2020 Controller will be upgraded to full Two-Way. Mount Vernon has 3 of these series. Re-Programming of RITRON Radio with new Two-Way Interface Board, Output Deviation Calibration and Controller Adjustments (Newer Series Sirens Only) Removal of radio and controller per siren is necessary, conversion to be done by Whelen. Please Note that once Radio and Controller has been removed, Siren will be out of service. Turn around time is approx. 2 weeks.	3	315.00	945.00T
Labor	Service includes removal of necessary equipment with all shipping charges and re-installation included. Frontline Will supply loaner radios to continue operation of siren while existing radios are upgraded.	1	850.00	850.00
FPU2805	The Upgrades listed below are for the older series E864 Controller. These Upgrades will bring the sirens up to the E2020 Controllers with full Two-Way. Mount Vernon has 2 of these series. Front Panel upgrade for WPS-2805. Includes all necessary equipment to change out the electronics, controllers, motherboards, amplifiers and battery charger to newer series.	2	4,300.00	8,600.00T
