## COMMUNITY PROFILE

2014

---

This report was created by Mount Vernon-Lisbon Community Development Group with technical assistance provided by DPN, under contract by the Iowa Economic Development Authority (IEDA).

This institution is an equal opportunity provider and employer. If you wish to file a Civil Rights program complaint of discrimination, complete the USDA Program Discrimination Complaint Form, found online at [http://www.ascr.usda.gov/complaint\\_filing\\_cust.html](http://www.ascr.usda.gov/complaint_filing_cust.html), or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form. Send your completed complaint form or letter to us by mail at U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, by fax (202) 690-7442 or email at [programintake@usda.gov](mailto:programintake@usda.gov). IEDA is an intermediary of USDA assistance.

## PUTTING A PLAN ON THE FUTURE

The economic landscape of traditional downtown and neighborhood commercial districts continues to change and evolve. Expanding retail competition, life-altering technologies, and shifting lifestyle trends will continue to affect business opportunities and the ways in which people interact within communities and traditional downtown environments.

The key to improving the economic performance of Mount Vernon's Uptown and surrounding business districts ultimately lies in the development and implementation of market-driven business development and marketing strategies that capitalize on our community's assets and emerging opportunities.

Mount Vernon – Lisbon Community Development Group spearheaded the market analysis process to promote an in-depth understanding of local and regional market conditions and trends impacting current economic performance and opportunities for the future. Information and direction gained throughout the market analysis process will provide a sound basis for local decision-making processes and strategies aimed at enhancing the Uptown district and Mount Vernon-Lisbon commerce.

Mount Vernon was one of six Main Street Iowa communities selected to receive 2014 market analysis training and technical assistance. The self-help process engages local leaders, business persons, residents and stakeholders. Key steps in the process included:

- Site visits and work sessions with the Main Street Iowa and Downtown Professionals Network team.
- The collection and review of background information.
- The analysis and summary of trade area demographic and economic data provided by Main Street Iowa.
- The performance of consumer and business surveys.

An extensive amount of information and data was compiled and analyzed throughout the course of the market analysis process. This report has been prepared to highlight key information and findings that could be particularly relevant to our community's ongoing enhancement efforts.

### For more information contact:

311 1<sup>st</sup> Street NW | Mt Vernon, IA 52314

☎ (319) 210-9935 ✉ [director@visitmvl.com](mailto:director@visitmvl.com) 🌐 [visitmvl.com](http://visitmvl.com)

This market study report was completed with assistance from Iowa Economic Development Authority (IEDA) and Main Street Iowa. United States Department of Agriculture Rural Community Development Initiative funding and Community Development Block Grant funding were procured by IEDA to underwrite market analysis training and technical assistance furnished to six Main Street Iowa communities in 2014.

The mission of the IEDA is to engender and promote economic development policies and practices which stimulate and sustain Iowa's economic growth and climate that integrate efforts across public and private sectors. The IEDA conducts training and provides technical assistance to designated Main Street programs, including market analysis. These services include capacity building on understanding the regional marketplace and how to develop and proceed locally with an implementation plan.

Downtown Professionals Network, a planning and research firm, was hired by IEDA and worked with Main Street Iowa to provide training, technical assistance and support to local Main Street organization leaders and volunteers.

### Limitations and Disclaimers

Retail market analyses, their components (such as retail sales gap analyses) and derivative business development plans provide important guidance on how a commercial area should, theoretically, be able to perform and on the sales levels businesses should be able to achieve. However, a number of factors affect the actual performance of businesses and commercial areas, including the skills of the business operator, level of business capitalization, the quality of the physical environment, changes in overall economic conditions, the effectiveness of business and district marketing programs, and many other factors. The information in this document is intended to provide a foundation of information for making business development decisions, but it does not and cannot ensure business success.

As is true of all demographic, economic and market studies, our analysis' reliability is limited to the reliability and quality of the data available. Our research assumes that all data made available by and procured from federal, state, county, city, primary and third party sources is accurate and reliable.

Because market conditions change rapidly and sometimes without warning, the information and opinions expressed here represent a snapshot in time and cannot predict or gauge future changes or results.

# MOUNT VERNON, IOWA COMMUNITY PROFILE

---

*“Every now and then, you stumble upon a town that’s gotten everything right—great coffee, food with character, shop owners with purpose.”*

Budget Travel Website—America’s 10 Coolest Small Towns

An authentic community with many of its original brick structures intact, Mount Vernon is home to three National Historic Districts, numerous unique stores, lots of restaurants and the world-class Cornell College. Stop in to dine or shop, and stay for any of our 14+ annual festivals and events.

Mount Vernon sits at the crossroads of Highway 30 and Highway 1 in Iowa. Highway 30 is the modern incarnation of the first trans-American roadway for cars and was originally called the Lincoln Highway. Highway 1 was the first major road in Iowa and was created out of the old Military Highway that ran from Dubuque to Iowa City. Our geographical proximity to both of these major modern highways allows citizens of Mount Vernon to quickly get to Cedar Rapids and Iowa City for work and recreation. And we are a short drive from these major Midwestern cities: Chicago, Minneapolis, Des Moines, Omaha, Kansas City, St. Louis, and Madison. Mount Vernon is also minutes away from the Eastern Iowa Airport, allowing us access, literally, to the world.

Our community is small in size with about 2,800 permanent residents and another 1,200 college students, but we are big on creating the amenities of a much larger community. We have a thriving arts community in town and our citizens actively participate in the arts through our multiple art galleries, our Movie Theater, and our various drama venues. Mount Vernon is currently looking at improving our Uptown streetscape, building a Wellness Center, and expanding our Parks & Trails. We have a Comprehensive Planning committee that helps us look to the future while we preserve our connection to the past in our many historic buildings.

Mount Vernon has access to three business districts: the Uptown commercial area, the Highway 30 corridor, and the Lisbon downtown. The Mount Vernon Uptown literally connects to the Lisbon downtown via the old Lincoln Highway. These two commercial centers are minutes from each other and offer a mix of service businesses, restaurants, and specialty shopping for local residents. The Highway 30 corridor also connects Mount Vernon and Lisbon. This commercial district is home to our car dealerships, grocery stores, gas stations, and other more large scale businesses.

Mount Vernon’s historic districts include the entire Cornell College campus and surrounding residential areas, an area in the Northwest quadrant (called the Ash Park District) and most of the uptown commercial structures.

---

## Mayor’s Welcome Statement

As Mayor of Mount Vernon, let me welcome you to Mount Vernon, Iowa!

Consider visiting Mount Vernon to enjoy our thriving Main Street, multiple parks, year-round festivals, and historic homes. Mount Vernon is a wonderful place to live, work, and play

As you will soon see, we have good reason to be proud of our community, our schools and Cornell College

We are appreciative of the efforts of our staff and our citizen volunteers that make Mount Vernon what it is.

James Moore  
Mayor, Mount Vernon

---

## MOUNT VERNON HISTORY

Mount Vernon owes its existence and history to the ridge on which it sits and four important historical developments which spurred growth. A handful of pioneers had settled along the ridge in the 1830s near what is now known as Highway 1. Highway 1 was initially constructed as a way to transport troops quickly from Dubuque to the new State Capital in Iowa City. First Street in Mount Vernon had a variety of business established on the ridge to support the travelers.

Cornell College was established in 1853 by Allison Willits. Two buildings, “Old Sem” and Old Main (both extant) were in use by 1857. The college continues to expand along the hill to the present day. The presence of the college led to the construction of many large, beautiful homes in Mount Vernon to house the expanding college student population and professors. Cornell College remains as both a historic component of our city but also as an economic engine for the community.

Two other developments led to the growth of Mount Vernon: the railroad and the Lincoln Highway. When the railroad arrived in the late 1800s, it spurred economic growth in the region and allowed Mount Vernon to be connected to both coasts. The arrival of the Lincoln Highway in 1912 brought people through the center of Mount Vernon on the first transcontinental road designed for automobile traffic.

## DEVELOPMENT IN MOUNT VERNON

Mount Vernon has maintained its distinct character by guiding growth. Mount Vernon zoning ordinances prohibit the placement of big box stores within city limits, allowing locally-owned businesses to thrive. While there is room for appropriate business growth in the Uptown commercial area, most future growth will take place near the proposed Highway 30 bypass south of town along Highway 1. City leaders have proposed a mixed development plan near the bypass that would include light industrial growth and the addition of specialized retail and service businesses.

In 2010, Mount Vernon had a Streetscape plan drawn up that includes upgrades to the Uptown commercial area. This plan would improve parking along our main street, upgrade our sidewalks, and provide for easier pedestrian access to the area. Mount Vernon has also been active in improving the appearance of our historic Uptown businesses. The most recent facelift happened to the Chameleon Pub & Grub, an Uptown restaurant and bar, when the owners reconstructed the façade of the building to blend with its historic neighbors via a HUD Challenge Grant and matching funds.

---

### Cornell College King Chapel (1882)

King Chapel has been on the National Register of Historic Places since 1976 and is built of dolomitic limestone quarried locally. The main tower, with its Seth Thomas clock, is almost 130 feet high and can be seen from miles away as it shoots up from the hilltop campus.

---

### Deb Hansen, Maya

Mount Vernon is such a warm, supportive community. They do so much for the businesses over here and – the people have been very welcoming. I enjoy the whole atmosphere. Business has been good. There are so many activities. It's been a good move.

---

## COMPETITIVE ANALYSIS

Mount Vernon is fortunate to be a destination city due to its many unique retail stores and the almost monthly festivals. This gives the town a competitive edge and vitality over similar nearby communities that surround it.

Most small towns that surround Mount Vernon struggle to maintain any sort of a business district that would draw either visitors or local residents to shop. This allows Mount Vernon businesses to draw people from surrounding towns to shop and enjoy what our town has to offer. We continue to expand our retail and restaurant opportunities with the new Old School Shops building on the east side of our business district and the opening of the Palisades Café in the center of our Uptown historic district. Both of these additions to our town draw shoppers and visitors from the surrounding area to Mount Vernon.

Mount Vernon continues to develop strategies to compete with the malls and large retail businesses that are found in Cedar Rapids and Iowa City. These two towns are within 20 minutes and they draw local residents who work in those cities to shop there. Mount Vernon businesses offer many of the same shopping experiences close to home and we are working on ways to draw local residents to our Uptown business district.

## EXCELLENT SCHOOLS

According to Education.com, the Mount Vernon School District is located in Mount Vernon, IA and includes 3 schools that serve 1,079 students in grades PK through 12.

The Mount Vernon School District spends \$9,581 per pupil in current expenditures. The district spends 61% on instruction, 33% on support services, and 6% on other elementary and secondary expenditures. The Mount Vernon School District has 14 students for every full-time equivalent teacher, with the IA state average being 14 students per full-time equivalent teacher.

The Mount Vernon School District had a grades 9-12 dropout rate of 2% in 2009. The national grades 9-12 dropout rate in 2007 was 4.4%.

## PARKS & RECREATION

Mount Vernon is the home of 12 different parks and recreation spaces and that doesn't include the beautiful wooded areas around the public schools and Cornell College. Our recreational opportunities include an outdoor swimming pool, soccer and baseball fields, basketball courts, volleyball nets, playgrounds, picnic areas, historic structures like the Lincoln Highway bridge, a nature park around "the quarry," two Frisbee golf venues, a sledding hill right in the heart of town, a skate park, and the new Nancy Doreen Huffman dog park.

---

### Mike Smith, Bauman's Clothing

I've worked here since 1969 and since the early 90s I've been an owner. The fact that we're located in Mount Vernon with Lisbon is an important factor for what we do. It's a perfect storm. We're located in a great area – the perfect town for what we do.

---

### Beautiful Historic Homes

Visitors to Mount Vernon are amazed at the beautiful homes that exist all over the city. These homes range from antebellum brick mansions to the painted lady Victorian home pictured above.

So park your car and take a walk through 150 years of architectural history in one of our many historic districts. And pay attention to the porches. Mount Vernon is full of great examples of the art of the porch.

---

## MOUNT VERNON - LISBON COMMUNITY DEVELOPMENT GROUP

The mission of the Mount Vernon-Lisbon Community Development Group (CDG) is to develop and promote our business environment and enhance the quality of life in the community we serve. We are the organization responsible for 14 annual festivals and events as well as dozens of community betterment projects.

The Mount Vernon-Lisbon Community Development Group works with 460-plus local volunteers to empower said volunteers to do cool things in their own community. The group uses the Main Street four-point approach to economic development utilizing four standing committees:

### *The Promotions Committee*

This committee focuses on two areas: Community Events and Retail Development. Many events and promotions are complimentary and integrated, and all support the mission of Main Street and Community Development.

### *The Organization Committee*

This committee focuses on communications, fundraising and developing a strong volunteer network to support the efforts of Main Street and Community Development.

### *The Business Improvement Committee*

This committee focuses on strengthening local businesses, supporting both short- and long-term economic growth, and helping to revitalize the business district.

### *The Design Committee*

This committee is involved with the physical aspects of the community such as signage, lighting, historic preservation, streetscapes and forming a comprehensive look and feel in our downtown districts.

## MOUNT VERNON IS A MAIN STREET COMMUNITY

The Mount Vernon-Lisbon Community Development Group (CDG) exists to improve the social and economic well-being of Mount Vernon and Lisbon by capitalizing on their unique identity, assets and character. Mount Vernon was selected as a Main Street community in 2008, and practices economic development within the context of historic preservation.

The Main Street Approach is a copyrighted process of the National Trust for Historic Preservation. The Program has been used in Iowa since 1986 with a total of 56 communities having participated. Mount Vernon was selected as a Main Street community on March 4, 2008 by the State of Iowa, after submitting a comprehensive application and presenting to a select board of reviewers.

### Historic Uptown District

Mount Vernon is full of unique businesses that draw people to our town. These shops add to the charm and character of Mount Vernon. We have a thriving business district that is full of clothing, antique, art, and specialty stores. We also are known for our many restaurants and our many festivals that are held in our historic Uptown Business District.

## YEARLY EVENTS

### *Cabin Fever Comedy Festival (March)*

This event is meant to be a diverse and inclusive Comedy Festival focusing on all aspects of comedy and featuring local and regional comedians and comic groups.

### *Chalk the Walk (May)*

Visit Mount Vernon on the first weekend in May for Iowa's largest-ever Mandori Festival. Titled Chalk the Walk, the two-day festival presents the work of more than 200 hundred artists utilizing a downtown city street as a canvas and more than a half-ton of chalk.

### *Chocolate Stroll (June)*

This free music and chocolate event invites guests to stroll down Mount Vernon's historic First Street where local chocolate vendors, located inside participating businesses, offer chocolate and chocolate products for sample and sale.

### *Lincoln Highway Antique Extravaganza (July)*

This Open Air Antique Show is located in our historic downtown shopping district. Antique vendors set up along the length of our Main Street. This event is held on the 4th of July and attracts visitors from all over the region.

### *Mount Vernon Heritage Days (July)*

Mount Vernon's three-day Heritage Days festival is usually held in mid-July and is the biggest celebration of the year. It includes live music, a parade, kids' rides, a 5K Fun Run, Art in the Park, food, and fireworks.

### *Lincoln Highway Arts Festival (September)*

The Lincoln Highway Arts Festival presents 50+ booths featuring local and regional artists. Each year, local businesses distribute a total of \$2,000 in vouchers to their customers. The vouchers can be redeemed at the artists' booths, with the artists reimbursed in cash by the Mount Vernon Area Arts Council.

### *Mount Vernon Porch Walk (September)*

Usually scheduled in the fall, the Mount Vernon Porch Walk offers historic property tours that feature the food of local restaurants and the creative work of several local artists and musicians.

### *Chili Cook-Off (October)*

The chili cook-off contest is open to the public and is held in October. The cooking takes place from noon to 4 p.m. with the public invited to the tasting portion of the event from 4 to 7 p.m.

### *Magical Night (December)*

The entire Uptown business district is open to the public during this evening. Live music is played in each shop, a live nativity is set up, horse drawn wagon rides are available, and many stores offer snacks and sales. Luminaries are set up on the sidewalks.

### **Nick & Paul Jerebek, Chameleon's Pub & Grub**

There's always something going on whether it's Heritage days, Chalk the Walk in May, the 4th of July Antiques Festival, and in late September there's an arts festival. It's a beautiful downtown.

## COMPETITIVE ANALYSIS

Mount Vernon has two distinct business areas. The Uptown includes a historic district filled with locally owned retail shops and professional services. The Highway Corridor starts at the intersection of State Highways 1 and 30 and continues north to the edge of the metro. Businesses in the Highway Corridor are mix of local ownership of national branded stores, local larger footprint businesses and professional services.

### Uptown District of Mount Vernon:

- The Uptown district contains one of three national historic districts that are within the community of Mount Vernon. The historic character of the uptown is a key attribute of the district in the eyes of the consumer and the business owners within the community.
- Mount Vernon has developed a reputation as a destination within the region. Thousands of people attend community events that focus on the arts, food, music and the family. Continued, conscious planning of events and activities that center the city's population in the uptown will maintain connection and ongoing support of improvement programs.
- There are many positive actions that have been taken in the last two decades to position uptown Mount Vernon as a vibrant, desirable place to be. Assets and features to be capitalized upon include:
  - Retaining and maintaining the historic unique character of the uptown district through the establishment of locally-owned businesses and rehabilitation of facades and backs of buildings with the district
  - Incremental development of the streetscape that is planned for the district.
  - Addressing the flow of traffic and the parking areas within the district
  - The general mood and mode of cooperation has yielded great results and will continue to be required in order to accomplish positive growth and change.
- The primary competition for the Uptown District for retail and dining is within a 10-20 mile radius outside of Mount Vernon.

### Highway District of Mount Vernon:

- The more urban character of the Highway District is a complementary presence rather than a competitive presence.
- The Highway District offers the opportunity for businesses needing a larger footprint or a stand-alone presence.
- The Highway District will be a large focus of Mount Vernon as a state project to relocate Highway 30 to the southern edge of the city will commence within the next three years. Access to the city will still be provided at the Highway 1 intersection and at the west end of the city by retaining the old Highway 30 access.
- The Highway District contains a destination grocery and automotive dealer; fast food and hard goods opportunities; medical and other professional services and retail convenience stores. The district is less of a “destination” experience.
- The business owners in the Highway District are becoming a more cohesive, organized voice within the community as the city decisions of appropriate zoning and growth are discussed.

### Strategies for the business districts, which build upon strengths, include:

- Maintaining the historic exterior features of the Uptown including building products, spacing and walkability and extending these concepts into new development in Highway District
- Maintaining the small retail experience in Uptown while introducing expanded opportunities in the Highway District.
- Integrating the Cornell College students and staff into the planning for retail, dining and drinking establishments as well as community facilities and infrastructure planning.
- Competition with Internet-based retailing threatens every small business owner. Technology and web / social media process education for business owners is highly requested.
- Addressing current gaps in businesses, according to a 2014 consumer poll, include:
  - Diversified dining
  - Bakery
  - General merchandise store
  - Book store
  - Specialty grocery store
  - Craft and hobby supplies
  - Expanded clothing stores for families
- Physical infrastructure regarding street and sidewalk repairs is required to maintain safety and desired to update the appearance of the business area.
- Addressing accessibility, safety and amount of parking in the uptown district
- Consistent store hours are desired including later evening hours, at least 1-2 times per week.
- A plan for maintaining cleanliness on the streets is an ongoing issue, particularly the large amount of artifact created by the indoor smoking ban and the sand resulting from winter street maintenance. In wintertime, progress has been made for effective snow removal strategies, keeping our downtown clean and safe.

## About Us

Welcome to Historic Lisbon Iowa!

Established in 1875 the City of Lisbon, Iowa is located on the east edge of Linn County, adjacent to the city of Mount Vernon along Highway 30 and the Historic Lincoln Highway.

With Cedar Rapids a short 20 minute drive and Iowa City 30 minutes, Lisbon's proximity to these metropolitan areas allows for citizens to enjoy work and recreation in larger cities while coming home to their small-town community.

Lisbon is also located 2 miles from Cornell College in Mount Vernon and 1 mile from a medical district offering services from emergency medicine to dentistry.

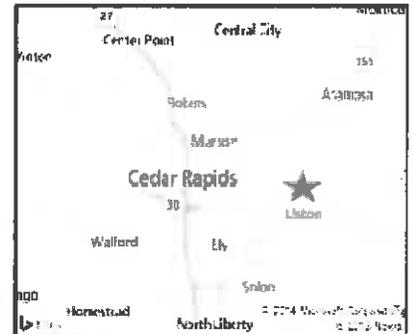

Known for its Sauerkraut Days Festival celebrated each year in August, Lisbon is also home to the Lisbon History Center and is an official Lincoln Highway Tourist stop.

Downtown Lisbon literally connects to uptown Mount Vernon via the old Lincoln Highway. Both communities offer a diverse mix of services, businesses, restaurants, and entertainment for local residents and visitors. The local businesses offer many of the basic needs of residents close to home along with several specialty shops.

With a population of 2,152 residents, according to the 2010 census, Lisbon is a true American small town. Lisbon has experienced steady growth the years both in residential and commercial aspects. Retention is key for Lisbon as they pride themselves in being "Today's Town, Tomorrow's Future."

In recent years, Lisbon has welcomed some new businesses including a specialty shop, Iron Leaf Press, to the downtown district, Brother's Market, a grocery store with Cabin Coffee housed inside the store and most recently a 64 bed care center to be located on Lisbon's west side near Brothers Market. Lisbon is delighted to work with business ventures of all types in order to supply its citizens with more job opportunities and to continue to steadily grow throughout the years.

*For more information on current businesses or available commercial space, contact Lisbon City Hall at 319-455-2459.*

## CITY GOVERNMENT

"Lisbon is a town of 2,152 residents with a growing school district and visions of growth for the town itself. The City continues to work to take Lisbon into the future and keep it a town where people stay and live for many generations."

~Lisbon Mayor  
Beryl O'Connor

The Lisbon City Hall is located at 115 N Washington Street, Lisbon. Built in 2012 this building is home to the city staff offices, meeting rooms, council chambers, police department and fire station. The city council consists of five members elected at large for overlapping terms of four years. Council meetings are the second and fourth Monday of each month at 7p.m. in the City Hall council chambers. The city council chambers also serve as the city's storm and heat relief shelter.

The Lisbon police department consists of 2 full time officers, 4 reserve officers and a full time police chief. The police department is very active in several programs including D.A.R.E (Drug Abuse Resistance Education), the Iowa Pledge Program and T.I.P.S training (Training for Intervention ProcedureS).

The Lisbon fire department is made up of 30+ members, several of which are trained and certified in EMS services. The Lisbon fire department covers all of Lisbon city limits and also assists neighboring towns and counties. Recently the Lisbon fire department has received funding to expand its EMS and paramedic program by adding additional training, equipment and staff.

## COMMUNITY

In 2005 Stan's DX Service station on West Main Street was removed and Lincoln Square was born giving forth a great place for gatherings or just relaxing. Lincoln Square is just one of the many things in town that make Lisbon a beautiful community in which to live and work in.

Each year the City of Lisbon holds several events which goals are to keep Lisbon a community people want to return to. One of these events is the Community Pride Clean Up. Each spring the city staff organize a day where volunteers come together on a Saturday morning to help clean the sidewalks, streets and greenery. The event helps to clean up debris left behind during the winter months along the main streets in town and in the city park.

Citizen involvement and assistance is key to every great town. Lisbon is fortunate to have the South East Linn Community Center, the center aims to embrace the entire community regardless of age or economic status.

Lisbon has a "Yard of the Month" program to promote goodwill and reward exemplary lawn care in the community. The purpose of the program is to recognize neighbors who demonstrate efforts in maintaining their property, thereby contributing to the overall appearance of the community at large.

*If you or someone you know would be interested in finding out more information about volunteering with any of the city events or programs please contact City Hall at 319-455-2459.*

# PARKS, RECREATION & TRAILS

## Lisbon City Park

299 E South Street, Lisbon

Amenities Include:

- Baseball and softball complex
- Picnic areas including the shelter
- Basketball court
- Wading Pool
- Playgrounds
- Ample green space

**Lisbon Parks & Recreation Director (319) 455-2459**

- Spring Soccer
- T-ball/Softball/Baseball
- Flag Football
- Fall Soccer
- Basketball

Lisbon Parks and Recreation offers several activities to residents throughout the year including sports, Halloween Town, Holiday Jubilee, winter activities for toddlers and a spring dance for adults.

### Walking Trails

Located along Old Lincoln Highway and South Street in Lisbon, the cities two walking trails provide a safe path for residents of all ages to walk to and from the school, as well as, to and from downtown Mount Vernon.

*City Park Pavilion*

*Johnson Park*

*Vernon Studdt Park*

# LISBON COMMUNITY SCHOOLS

## Lisbon Community School & Early Childhood Center

235 W School Street, Lisbon 319.455.2075

Our Mission: World class opportunities with Community PRIDE

Passion Rigor Innovation Drive Excellence

The Lisbon School District includes 3 schools that serve 678 students in grades PK through 12. The school is also home to the Lisbon Early Child Care & Education Center which serves children ages 0-7+ and has a capacity of 112 children.

## PLACES TO VISIT

### Lisbon History Center

102 E Main, Lisbon 319.455.2714

The Lisbon History Center was started in early 1990 above the Library in what is now Heritage Hall. A large collection of old memorabilia was discovered there and was sorted and documented. Now settled in at their current home with over 2,000 square feet of display areas full of memorabilia of Lisbon and surrounding areas. Home to the largest collection of Civil War era Mountain Howitzer cannons.

Open 10am-3pm Monday – Wednesday, Saturday.

### Lisbon Library & Heritage Hall

101 E Main, Lisbon 319.455.2800

The name Heritage Hall was chosen for the space because of its rich history during the last quarter of the nineteenth century. Today the hall is sought after by professional and amateur musicians as a performance space because of its outstanding acoustic qualities and intimate setting.

The Lisbon Library Lisbon Public Library is located in an historic storefront building in the heart of downtown Lisbon, Iowa. Our small library has popular print and non-print materials for everyone and specializes in high-quality reading material for children of all ages. Computers and wireless internet are available for public use.

### Lisbon Sauerkraut Days

The 1<sup>st</sup> Sauerkraut Festival was on September 16th, 1909. During the war sauerkraut day was ceased to help with war efforts. In the fifties and sixties it was revitalized into Pork Days. It wasn't until the early 1980s that it returned to being Lisbon Sauerkraut Days and moved to August to become the celebration it is today with the mission of bringing family friendly events, shows and attractions to this community for an annual celebration.

**JOINT DRIVE TIME ANALYSIS AND  
COMMERCE STRATEGIES  
2014**

# DRIVE TIME MARKET SNAPSHOT SUMMARY

## DRIVE TIME GEOGRAPHIES

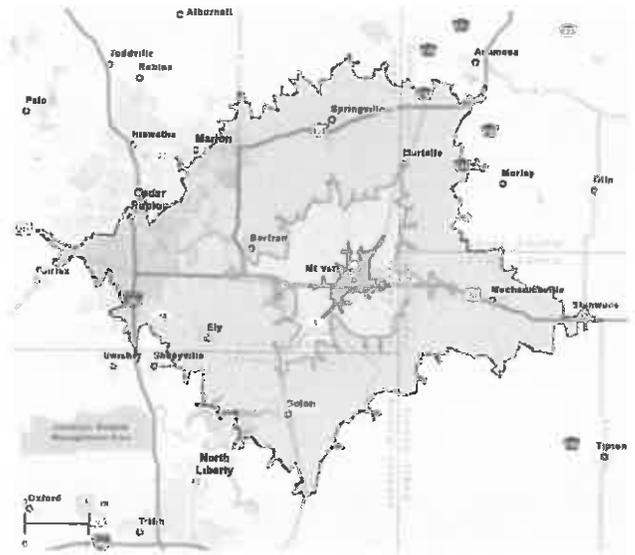

The profile assembled for the Mount Vernon Drive Time Market is based upon information contained in a series of ESRI reports provided by Main Street Iowa, generated for a 5, 10, and 20 minute drive time area originating from the center of the uptown Mount Vernon business district.

The **five-minute drive-time market** profiles a “captive” resident and convenience-oriented market for uptown Mount Vernon. The population residing in the five-minute area would also be more likely access uptown on foot, bicycle and via other alternative modes of transportation. Demographic and psychographic data could be particularly useful for assessing performance and expansion opportunities for convenience and clientele-oriented businesses and uses, and for analyzing and profiling the composition of the current and potential uptown Mount Vernon area housing market.

The area plotted for the **ten-minute drive time** includes areas that span along major travel routes in the Mount Vernon-Lisbon vicinity. Data and information for the ten-minute drive time area could be helpful for comparing and contrasting the traits and characteristics of the “close to uptown” population with that in the wider local region. The consumer profile may also be indicative of the “comparison market” for Mount Vernon area service, retail and eating & drinking uses.

The **twenty-minute drive time** area is generally more expansive and rural in nature, encompassing areas of four counties and primarily extending along state highways and major travel routes, but also extending west into Cedar Rapids. Consumers in this regional market, all things being equal, may be more naturally inclined to frequent commercial areas in other communities, based on convenience and/or broader variety and anchor tenants. Opportunities for downtown Mount Vernon to capture regional market consumers from the broader region, and to increase its retail market share, will most likely revolve around retail and service anchors; specialty retail and destination-oriented eating & drinking places; recreational attractions and venues; and events.

**Note:** A complete copy of the Mount Vernon Market Snapshot document prepared as part of this study serves, and is available, as a reference document.

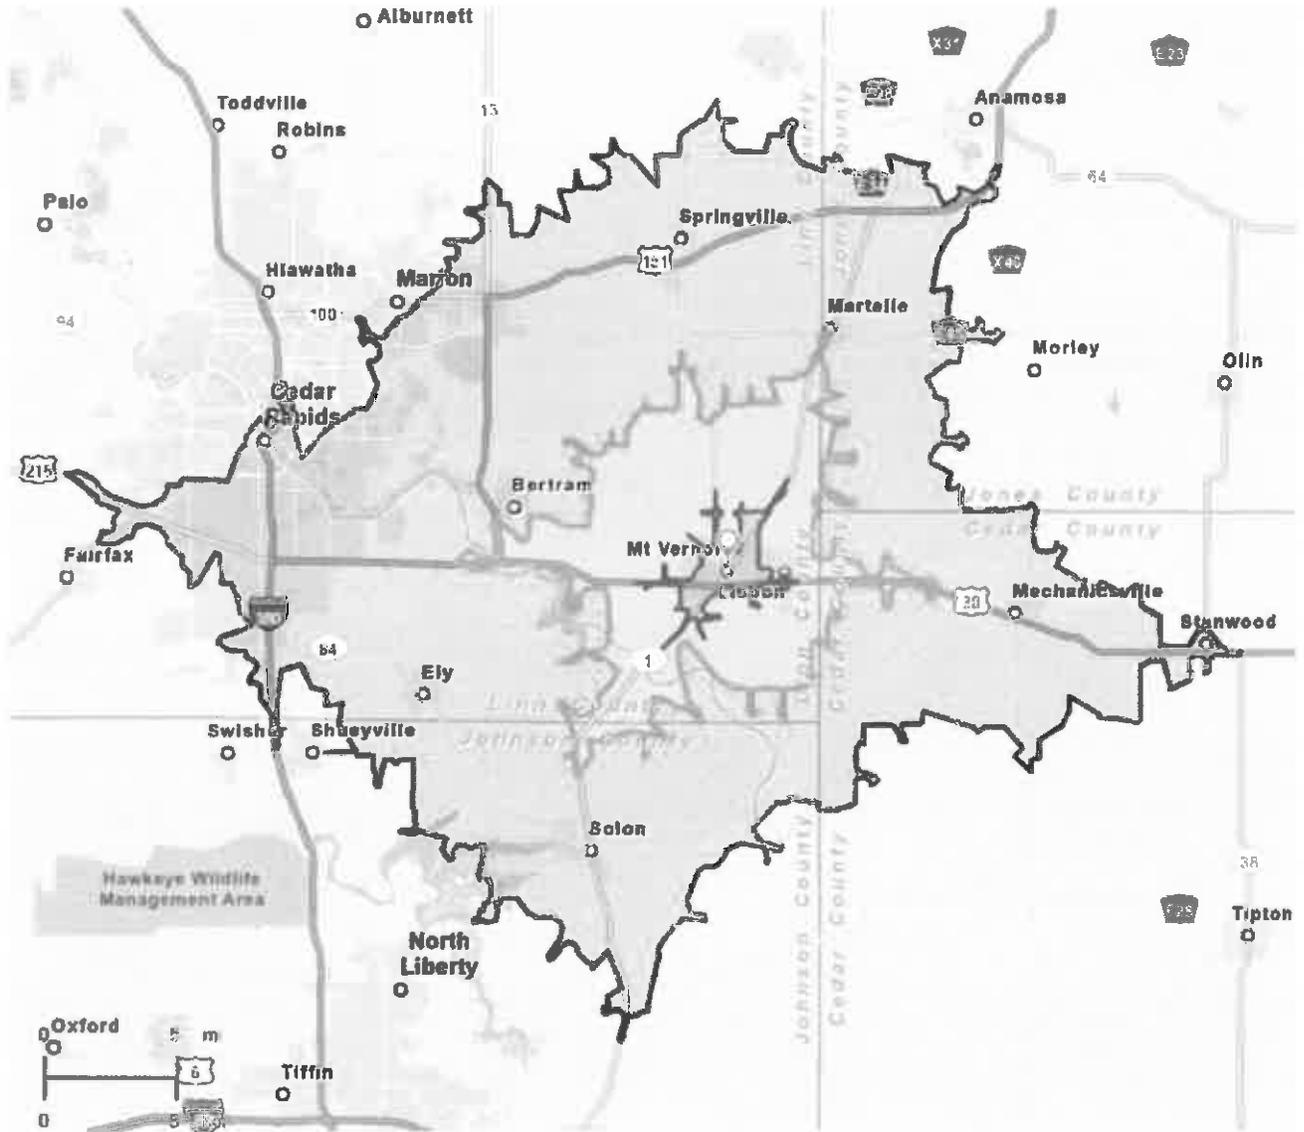

Downtown Mount Vernon Drive Time Markets

Reports generated and used to examine the Mount Vernon Drive Time Markets are based on current ESRI data and include:

***ESRI Market Profile***

The Market Profile report provides current-year and five-year projections for U.S. demographics. The annual updates include information about population, households, housing, occupancy, income, age, race, Hispanic origin, and more.

***ESRI Retail Goods and Services Expenditures***

Built on ESRI's Consumer Spending database, the report shows the amount that households spend in select products and services categories compared to national figures.

***ESRI Tapestry Segmentation Area Profile***

Tapestry classifies U.S. residential neighborhoods into 65 unique market segments based on socioeconomic and demographic characteristics.

***ESRI Retail MarketPlace Profile***

Retail MarketPlace data provides a measure of retail activity by trade area and compares retail sales to consumer spending by NAICS industry classification.

## DEMOGRAPHIC SNAPSHOT

The demographic snapshot compiled for the Downtown Mount Vernon Drive Time Markets benchmarks and tracks changes in the marketplace. Analysis and comparison of data for the three drive time areas reveal:

- ▶ Trends and projections for the population and households within the drive time geographies anticipate five-year increases in population ranging from 3.4% to 4.6%; and household percentage gains ranging from 4.6% to 5.7%. At the state level, population and number of households are expected to grow at five-year rates of 2.7% and 3.0%, respectively.
- ▶ The average number of households is anticipated to increase slightly across the drive time areas. The median age is expected to increase by about one year in the various drive time areas through 2018. The median age is greatly influenced by the college population thus driving the age downwards. The Median age for the Iowa population in 2013 is estimated at 38.4 years and is expected to reach 38.9 years by 2018.
- ▶ Renter-occupied housing units are most prevalent in the 20-minute drive time area – estimated at 27.5% in 2013. The strength of the local housing market and the influence of the college is reflected in a very low vacancy rate between 3.0% and falling to 1.8% in 2018. State figures for 2013 assigned a vacant status to 8.6% of all housing units, and the figure is expected to drop to 8.5% by 2018.
- ▶ Overall, median, average and per capita income figures for the drive times are higher than those estimated for the state. Median household income, highest in the five-minute drive time, is expected to increase across the drive time geographies by about 17% to 32% through 2018. Projected five-year growth rates for median household, average household and per capita income compare favorably or exceed growth rates predicted for the state.

Iowa Income	2013	2018	+ %
Median HH	\$49.6K	\$59.5K	19.9%
Average HH	\$64.3K	\$75.1K	16.8%

## LIFESTYLE PROFILE

The ESRI Community Tapestry segmentation system classifies U.S. neighborhoods by 65 market segments using proven methodology introduced more than 30 years ago by the ACORN segmentation system. Segmentation and geo-demographic systems are stable and reliable because the characteristics that define a neighborhood change slowly. The stability of a neighborhood comes from its fixed features: location, housing, transportation, schools, places of worship, and employment. Self-organization and self-perpetuation also figure into the stability of a neighborhood, patterns which we refer to as “keeping up with the Joneses.”

### Comparative View of Drive Time Area Household Segments

The following table shows and compares concentrations of the five most prevalent Tapestry household segments found within each of the various Downtown Mount Vernon drive time areas.

Households Tapestry Segment	5 Minute Drive Time			10 Minute Drive Time			20 Minute Drive Time		
	Count	Pct.	Rank	Count	Pct.	Rank	Count	Pct.	Rank
26. Midland Crowd	588	40.7%	1	1,359	48.2%	1	1,360	5.3%	11
18. Cozy and Comfortable	548	37.9%	2	705	25.0%	2	2,800	8.6%	4
22. Metropolitans	309	21.4%	3	439	15.6%	3	439	1.4%	17
07. Exurbanites	0	0.0%	--	151	5.3%	4	2,322	7.2%	6
17. Green Acres	0	0.0%	--	117	4.2%	5	1,523	4.7%	10
12. Up and Coming Families	0	0.0%	--	1	0.0%	8	3,295	10.2%	1
55. College Towns	0	0.0%	--	0	0.0%	--	3,211	9.9%	2
29. Rustbelt Retirees	0	0.0%	--	0	0.0%	--	3,187	9.8%	3
41. Crossroads	0	0.0%	--	0	0.0%	--	2,395	7.4%	5
<b>Total Count/Pct of Area</b>	<b>1,445</b>	<b>100.0%</b>		<b>2,772</b>	<b>98.3%</b>		<b>20,532</b>	<b>64.5%</b>	

The data shows consistency in the presence of the various groups, but also reveals distinguishable lifestyle patterns. For example, while the five minute drive time area is dominated by three Tapestry Segments (Midland Crowd, Cozy and Comfortable and Metropolitans) which, collectively, characterize about 90 to 100% of 5 and 10-minute drive time area households, the percentage of households characterized by these same segments drops to about 15% at the 20-minute drive time level, where every segment has less than a 11% share of the population.

The data and findings suggest that opportunities and strategies to increase Mount Vernon’s market share might be focused in three areas:

1. Local, client and convenience-oriented marketing and business development strategies which appeal to characteristics and traits common to three prevalent tapestry segments represented in the five and ten minute drive time area (Midland Crowd, Cozy and Comfortable and Metropolitans). These strategies are likely to emphasize local personalities, hometown customer service, local traditions and convenience.
2. Extending regional appeal through intentional marketing, messages and events specifically designed to appeal to the lifestyle characteristics of the Up and Coming Families, College Town and Rustbelt Retirees lifestyle groups which represent nearly 40% of all twenty-minute drive time area households. These strategies are likely to emphasize convenience, family focused events, diversified dining.
3. Continuing to capitalize on unique uptown characteristics and attractions which have special appeal – and “pull” – for visitors and day-trippers traveling from areas within all drive times and beyond the twenty-minute drive time area.

*Complete descriptions of prevalent study area Tapestry segments is contained in the Mount Vernon Market Profile document, available as a supplemental document to this report. Additional information on ESRI Tapestry methodology and applications, along with descriptions for Tapestry’s 65 segments, are contained in the ESRI Community Tapestry Handbook available for download at <http://www.esri.com/library/brochures/pdfs/community-tapestry-handbook.pdf>.*

## RETAIL MARKET PERFORMANCE

ESRI's Retail MarketPlace data provides a direct comparison between retail sales and consumer spending by industry. To capture a snapshot of an area's retail market place, the leakage and surplus factor summarizes the relationship between supply (retail sales by businesses) and demand (consumer spending by household). Deviations from potential sales may reveal areas of opportunity in the trade area's retail sectors, keeping in mind any extenuating circumstances that may be driving the results.

ESRI uses the North American Industry Classification System (NAICS) to classify businesses by their primary type of economic activity. Retail establishments are classified into 27 industry groups within Retail Trade sector, and four industry groups within the Food Services & Drinking Establishments subsector. To estimate sales, the Retail MarketPlace database combines a number of data sources, including:

- Census Bureau's Census of Retail Trade (CRT)
- Census Bureau's Nonemployer Statistics (NES)
- ESRI's demographic data
- Dun & Bradstreet, Inc.
- Bureau of Labor Statistics

All estimates of actual sales (supply) reflect current dollars derived from receipts of businesses primarily engaged in selling merchandise. Potential sales (demand) is estimated by using ESRI's consumer spending data which provides estimated expenditures for more than 700 products and services that are consumed by U.S. households. The estimate of a trade area's demand is based upon estimated expenditures by households within the trade area.

Leakage within a specified trade area represents a condition where supply is less than demand. Retailers outside of the trade area are fulfilling demand for retail products. Surplus within a specified trade area represents a condition where supply exceeds the area's demand. Thus retailers are attracting customers that reside outside the trade area.

### Sales Surplus and Leakage Estimates

Total Retail Trade and Food & Drink estimates for the drive times show a sales surplus at the 5-minute drive time level estimated at \$21.1 million. The 10-minute drive times show sales surplus of a smaller \$7.5 million. The 20-minute drive time also shows a sales surplus estimated at \$250.4 million. The overall sales surplus figure in the 5-minute drive time area is largely driven by what appears to be exceptional strength and performance in the Retail Trade category with an estimated sales surplus of nearly \$15 million.

Retail trade categories or subcategories showing strong performance in the five-minute drive time area are: 1) Automobile Dealers 2) Grocery Stores 3) Building materials and Supplies Dealers and 4) Beer, Wine & Liquor Stores. Opportunities to capture the local market or areas of sales leakage are 1) General Merchandise Stores 2) Clothing and Clothing Accessories 3) Full Service Restaurants and 4) Electronics and Appliances.

#### Downtown Mount Vernon • Esri Retail MarketPlace Report Summary

	5 Minutes	10 Minutes	20 Minutes
NAICS Code: Business Description	Surplus/(Leakage) Estimate	Surplus/(Leakage) Estimate	Surplus/(Leakage) Estimate
Total Retail Trade and Food & Drink (NAICS 44 – 45, 722)	\$21,176,624	\$7,449,061	\$250,400,709
Total Retail Trade (NAICS 44 – 45)	\$15,325,421	\$1,618,428	\$242,262,370
Total Food & Drink (NAICS 722)	\$5,851,203	\$5,830,633	\$8,138,339

Total Food & Drink category sales surpluses at the 5-, 10- and 20-minute drive time levels range from about \$5.9 million in the 5-minute drive time to \$8.2 million in the 20-minute drive time. There is a leakage of almost \$1 million within the 5-minute drive time in the full service restaurant category which offsets the sales surplus of \$6.8 million in the Special Food Service category.

# COMMUNITY PARTICIPATION

The process behind the completion of this study was orchestrated to provide opportunities for Mount Vernon stakeholders and Mount Vernon area residents and visitors the chance to provide ideas and input that form the basis for this study’s findings and directions. Public participation opportunities included:

- Performance of an online consumer survey completed by 137 respondents.
- Conduct of a consumer intercept survey completed by 155 visitors to the area.
- Performance of a business survey completed by 100 Mount Vernon businesses.

Following is a categorized, capsule summary of key results and findings relevant to Mount Vernon economic development topics and initiatives.

## Market Region

The local Mount Vernon area and nearby market is an important part of the Mount Vernon economy. Efforts geared toward enhancing day-visitor related attractions in the community stand to benefit all Mount Vernon area businesses. The “pull” of Mount Vernon as an area destination is evident in survey respondent origin results, with 63.4% of intercept survey respondents identifying their permanent place of residence as within the Mount Vernon Zip Code.

In what Zip Code is your home located?						
Zip Code - Residence	Intercept Sample		Online Sample		Total Sample	
52314 – Mount Vernon	103	66.6%	82	59.9%	185	63.4%
52253 – Lisbon	14	9.0%	17	12.4%	31	10.6%
5240x – Cedar Rapids	4	2.5%	17	12.4%	21	7.2%
All Others	34	21.9%	21	15.3%	55	18.8%
<b>Total</b>	<b>155</b>	<b>100.0%</b>	<b>137</b>	<b>100.0%</b>	<b>292</b>	<b>100.0%</b>

Mount Vernon businesses very clearly appear to recognize the critical role that local residents play in the sustainability of the downtown economy, with 82% of business survey respondents identifying “local/regional Mount Vernon residents” as their primary customer base. The findings are consistent with consumer intercept survey results that show more than 74% of respondents indicated that they live less than ten miles from the Mount Vernon area. Based on home zip code responses, over 80% of respondents live within a twenty minute drive of the Mount Vernon area.

Business development, marketing and promotion strategies should continue to recognize the local/regional Mount Vernon market as a dominant force. Public improvements and enhancements might be designed with both area residents and visitors in mind.

## Attraction

When the intercept respondents were asked how Mount Vernon compares to other places they frequently shop, only 10.1% thought that the variety of shopping was better than other places they frequent. 27% of the respondents thought that the quality of the products and services were better than other places they frequent and 55.1% thought Mount Vernon’s customer service was better. This would indicate that the customers that shop in Mount Vernon are pleased with the level of service and the quality they are receiving but would desire a wider or deeper selection.

The findings directly related to business survey results that showed business owners and managers cited “Reputation” and “Customer Service” as top reasons for customers to do business with them. This is reflective of qualities and benefits, as opposed to commodities, that are nurtured through time, experience and interaction. The business survey also indicates that there is a perception that customers do business in Mount Vernon also due to selection and variety (20%). This is in contrast to the consumer seeing the area as weaker compared with other places they frequent.

<b>Business Survey Q5: Which one of the following best describes the main reason for customers to do business with you?</b>		
<b>Media Sources</b>	<b>Count</b>	<b>Percentage</b>
A. Selection & variety	20	20.0%
B. Customer service	25	25.0%
C. Convenience	5	5.0%
D. Price of goods & services	11	11.0%
E. Reputation	26	26.0%
F. Other*	13	13.0%
<b>TOTAL</b>	<b>100</b>	<b>100.0%</b>
* "Other" responses: Fellowship/Worship, Medical/Emergency Service, Necessity, Specific Service Provided, Good Teachers, Quality.		

The relative strength of the food services cluster and the growing attraction of entertainment-oriented events as cited by the focus group participants, could point to opportunities for the expansion of restaurant offerings and entertainment-oriented uses. This will further establish Mount Vernon as a destination-oriented position in the market. Specific focus is desired on family oriented events.

The results show a desire, almost 40%, for more restaurants of any type including a general dining, bakery or brewpub to establish a business in the Mount Vernon area. When the intercept respondents were asked what other types of businesses might make them visit Mount Vernon more often, they also cited book stores (5%), clothing and shoe stores (6%), hobby stores (2.7%) and other entertainment and recreational activities (16%) as a few examples. The majority of respondents (50.5%) said they visit Mount Vernon daily for errands, shopping, eating, or drinking. As far as service-related businesses are concerned, the 28.8% of respondents said they visit Mount Vernon for banking/investments (8.8%), pharmacy (8.5%), Dr./Dentist/Eye care (8.3%) and insurance (3.2%) needs. Results from the consumer survey indicate a frequency of visit between 85% and 58% for the Grocery Store, Restaurants, Gasoline, Hardware Store, Banks, and Pharmacy by the people responding.

The Mount Vernon community is viewed by greater than 50% of respondents as stronger in cleanliness when compared to other locations visited. Continued focus on maintaining appearances clearly sets Mount Vernon apart from other locations. Opportunities exist in the following areas according to business and consumer survey: Implementation of the streetscape plan in the uptown district, general improvements for the streets, sidewalks, green spaces and lighting in the business districts, developing a plan for winter maintenance.

### Media Preferences and Effectiveness

Survey findings on the media preferences of consumers in the Mount Vernon area can provide direction for effective business marketing, promotion and cooperative advertising strategies. The information can also provide direction for communicating news and proposals for changes and improvements in the business districts.

<b>Consumer Survey: Of the following, which two (2) media and information sources do you use most often to get Mount Vernon area news and information about Mount Vernon events and businesses?</b>		
<b>Media Sources</b>	<b>Total Sample</b>	
A. Newspaper	226	37.8%
B. Shoppers Guide	45	7.5%
C. Television	36	6.0%
D. AM/FM Radio	14	2.3%
E. Direct Mail	19	3.2%
F. Internet Website(s)	67	11.2%
G. Email Marketing	28	4.7%
H. Social Media (Facebook, Twitter, etc.)	86	14.4%
i. Other (please specify)	14	2.3%
J. None	63	10.5%
<b>Data Note:</b> Multiple responses allowed. Percentages based number of participants responding to question.		
* Raw data listing of "Other" responses provided as supplemental data as Exhibit 2		

The Newspaper, followed by Social Media and Internet Websites, was cited as the most influential media source by consumer survey participants responding to the question, “Of the following, which two media sources do you use most often to get Mount Vernon area news and information about Mount Vernon events and businesses?” Newspaper is the prevailing source amongst all respondents, with social media receiving high response from internet participants.

By comparison, business survey respondents cited Newspaper (53%), Internet Website (36%) and Social Media (23%) as the media or advertising sources their business found most effective. Over 27% of respondents made special note that word of mouth, referrals, and professional associations are their best source of advertising for their businesses.

## **Internet Marketing and E-Commerce**

Participants in the survey reported that they use their local newspaper, internet resources and social media as their top media preferences for keeping up with the happenings in Mount Vernon. The ranking of media preferences demonstrates the growing influence of the Internet and social media applications as a news resource, for researching products and services, and for communicating with clients. The Internet can be a particularly valuable resource for businesses because it provides the potential for businesses to expand their trade area well beyond local or regional geographies. Businesses with collectible, specialty, and custom merchandise lines, in particular, can use the Internet to market to the entire United States or even globally. Even traditional retailers and business carrying “staple” products are reaping benefits as, more and more, consumers use the Internet to “shop and compare” products and services, and then use the Internet – in much the same way previous generations of consumers used the Yellow Pages – as a resource to find a local outlet or vendor where they can make their purchase.

The majority of Mount Vernon business survey participants have established a presence on the Internet, with 77 businesses (77% of survey respondents) indicating that their business has an Internet website. Social Media and online applications utilization are tools used by business survey respondents. 40% have a Facebook page and approximately 10% use Google+ and Twitter.

Mount Vernon’s business marketing and cooperative advertising efforts should consider how the Internet and various E-commerce, online directories and social media applications might be most effectively used to communicate with consumers and to further business promotional goals. The growing popularity of Facebook, for example, as an effective source to communicate with clients is evident in consumer survey results that show 14.4% of all respondents selected Social Media as one of their top two sources for news and information.

Business development efforts must also consider how the growing influence of the Internet and E-Commerce might impact local business retention, expansion and recruitment strategies – both positively and negatively. Specialty businesses that otherwise might **not** be sustainable if left to rely exclusively on the local trade area, but that have product lines conducive to eCommerce, may be candidates for expansion and recruitment. There are already a couple of good examples of businesses that do this in Uptown Mount Vernon and in the Highway District. These businesses use internet tools to provide customers research tools on inventory and price and through either an eCommerce site or other method allow customers to order their merchandise to ship outside of the local area.

The consumer survey confirms the eCommerce can serve as a method to fulfill gaps in the local retail offerings or may be a direct threat to the brick & mortar retailer. Within the last three months 16.8% of respondents have purchased books on the internet. 14.9% have purchased gifts and 9.8% have purchased women’s clothing.

## Competitive Comparison

Consumer survey participants were asked to compare Mount Vernon to other places they frequently shop and do business. Based on the frequency of “equal or stronger” responses, Mount Vernon’s strengths and competitive advantages versus the competition appear to include:

Item/Feature	Percent Rating as “Equal or Stronger”
▪ Attractiveness	94.9%
▪ Cleanliness	94.9%
▪ Customer Service	93.2%
▪ Quality of Product and Service	89.4%
▪ Quality of Dining	80.1%

Based on the frequency of “weaker” responses, Mount Vernon’s liabilities and competitive disadvantages as perceived by area consumers to include:

Item/Feature	Percent Rating as “Weaker”
▪ Variety and selection of shopping	49.3%
▪ Variety of Dining	43.2%

Marketing and business development efforts should seek to capitalize on those features already “known” as being strengths and having appeal among trade area consumers. Development strategies might focus on increasing and depth and breadth of dining and retail experiences.

## Mount Vernon Priorities

Consumer and business survey respondents tend to share some similar views in considering priorities for possible revitalization efforts. Both groups place a high value on efforts to improve street, sidewalks, lighting, furnishing, green spaces, and trails in the business area – ranked as a “High Priority” by 66.1% of consumer survey respondents and by 53.0% of business survey respondents. High marks were also given to creating incentives for new and expanding businesses, with 53.4% of consumer survey respondents and 58.0% of business survey respondents assigning this item a “High” priority level.

Mount Vernon Consumer Survey Q11.1 – Q11.4   Mount Vernon Business Survey Q18.1 – Q18.4						
Would you place a high, moderate or low priority on possible Mount Vernon enhancement efforts to:						
	Consumer Survey			Business Survey		
	High	Moderate	Low	High	Moderate	Low
Restore and preserve the uptown historic character?	58.2%	29.5%	7.2%	43.0%	35.0%	13.0%
Improve streets, sidewalks, lighting, furnishings, green spaces, trails, in the business area?	66.1%	24.7%	5.1%	53.0%	25.0%	12.0%
Create incentives for new and expanding Mount Vernon businesses?	53.4%	34.2%	6.2%	58.0%	25.0%	9.0%
Improve and / or create more housing in the Mount Vernon area?	30.1%	37.7%	22.3%	34.0%	29.0%	27.0%

Note: “No Opinion” responses omitted from table.

Input regarding priorities for the Mount Vernon generally aligns with suggestions offered by consumer and business survey respondents when asked, “What is the first thing that should be done to improve the business climate in Mount Vernon?” Business Improvement/Development initiatives, dominated by business recruitment, ranked first by both business and consumer survey respondents. Design-oriented subjects and topics are next in importance for the consumer. The business survey indicates a desire to focus on promotion.

<b>Data Note:</b> Summary of most frequent responses, categorized by topic and shown based on frequency.				

All survey respondents were asked an open ended question, "What is the one thing that you love most, or that you would never change, about Mount Vernon?" The answers were grouped by similarity. The results show an overwhelming appreciation for the sense of community that is exuded from the people in Mount Vernon. The business and consumer survey responses indicates characteristics of considerate, welcoming, friendliness, community involvement and pride as common themes in what is loved the most or should never change.

The overall environment of the uptown district is something that 22.3% of consumer are most attracted to and should never change. The general aesthetics of the community, including the historic appearance, general cleanliness, and green spaces of the community, are of great importance to the consumers and businesses with over 38% feeling that these attributes are desirable. The responses indicate that continued investment in maintaining the uptown and historic architecture is of great community pride and enjoyment of consumers and is an attribute that sets the community apart. The continued focus on keeping the community clean and incorporating nature in to the business areas is also viewed as desirable.

## Business Opportunities

Surveys were among a number of tools used to help identify and gauge the potential for possible business expansion and recruitment prospects in Mount Vernon. The information is helpful in assessing business opportunities and in identifying possible gaps in the downtown business mix. Consumer survey responses could provide additional insight and help to gauge how the trade area might respond to various types of new and expanded businesses. The table appearing below displays a categorized listing of suggestions for business types and attractions most frequently cited by consumers.

<b>Consumer Survey: Please list one or two specific types of businesses or attractions that might make you come to Mount Vernon more often:</b>		
<b>By Category/Subcategory</b>	<b>Total Sample</b>	
<b>Category: Eating &amp; Drinking Places</b>	<b>117</b>	<b>39.3%</b>

## Business Climate and Opportunities

Certain business survey results provide a general indication of the existing business climate in the Mount Vernon area and the potential for existing area businesses to expand. Survey findings, along with ESRI data, can provide direction for business retention and expansion efforts, including possibilities for providing business assistance and programs that could catalyze private reinvestment and positive changes in the downtown area. The business survey questionnaire was completed by 100 businesses.

### Business Ownership and Tenure

Ownership status and the tenure of businesses in the Mount Vernon area provides an indication of the business district's stability, the market's ability to sustain businesses, and the commercial district's appeal as a place for investors and entrepreneurs. The Mount Vernon area appears to have a balanced mix of owner- and renter-occupied business locations, with 61% of business survey participants indicating that they own their business location.

Of the businesses participating in the survey, 57% have been in business in Mount Vernon area for ten or more years – a figure that could be viewed as an indicator of stability in the downtown business mix. Data also suggests the need to address a certain level of succession planning given that 35 businesses (35%) indicate they have been operating for 20 or more years and 8% are thinking about selling or closing the business.

<b>Q.3: How long has your business been located in Mount Vernon?</b>		
<b>Response</b>	<b>Count</b>	<b>Percentage</b>
A. Less than 1 year	3	3.0%
B. 1 to 4 years	17	17.0%
C. 5 to 9 years	22	12.0%
D. 10 to 20 years	23	23.0%
E. 20+ years	35	35.0%
<b>TOTAL</b>	<b>100</b>	<b>100.0%</b>

Results are also suggestive of a business area that attracts new entrepreneurs and investors as evidenced by the fact that 20 respondents (20%) indicated their business has existed in Mount Vernon for 4 years or less.

## Potential Business Expansion and Assistance

The retention and expansion of existing businesses is a key to business development and recruitment efforts. Business survey results suggest that 13% of businesses owners are highly contemplating expansion within the next two years.

<b>Q.11: Which of the following best describes the potential for your business to expand within the next 1 or 2 years?</b>		
<b>Response</b>	<b>Count</b>	<b>Percentage</b>
A. Very High	4	4.0%
B. High	9	9.0%
C. Moderate	32	32.0%
D. Low	28	28.0%
E. None or Very Low	27	27.0%
<b>TOTAL</b>	<b>100</b>	<b>100.0%</b>

Business survey participants also provide insight on possible changes that could occur within the downtown area and the business mix based on affirmative responses to a list of possible modifications. The frequency of businesses indicating plans to expand their business services / products (35%), increase marketing (34%), increase their number of employees (23%), and start or complete building improvements within the next year or two (18%) are positive economic indicators for the Mount Vernon business districts. Only three businesses indicated plans to close their business and five businesses responding indicated plans to sell their business in the next year or two.

<b>Q.12: In the next year or two, do you plan to change or modify your business in any of the following ways?</b>		
<b>Response</b>	<b>Count</b>	<b>Percentage</b>
A. Expand hours of operation	8	8.0%
B. Increase marketing	34	34.0%
C. Expand services or product lines	35	35.0%
D. Increase number of employees	23	23.0%
E. Start and / or complete building improvements	18	18.0%
F. Relocate your business in Mount Vernon	13	13.0%
G. Decrease your services or product lines	1	1.0%
H. Move your business	0	0.0%
I. Sell your business	5	5.0%
J. Close your business	3	3.0%
K. Other *	34	34.0%
<b>Data Note:</b> Multiple responses allowed. Percentages shown based on 100 participants responding to question. Percentages do not equal 100%		

## Complementary Business Opportunities

Business survey participants were provided an opportunity to identify complementary business opportunities for Mount Vernon by listing up to three types of new business that, located near them, would help their business generate more revenue and/or have the best chance to succeed. The categorized results are displayed in the following table.

<b>Q.10: What type of new businesses or attractions, located in Mount Vernon, would help your business and /or have the best chance to succeed? Multiple Responses Allowed</b>		
<b>Category (Subcategory)</b>	<b>Count</b>	<b>Percent</b>

<b>Category: Services</b>	<b>10</b>	<b>8.9%</b>

## Business Mix

The Mount Vernon business districts feature a balanced business mix that includes general merchandise and specialty retailers, eating & drinking establishments, services businesses, professional offices, civic facilities, churches, and governmental services. A breakdown of the area's business inventory by general business type demonstrates the diverse nature of the business mix and the district's multi-use characteristics.

Summary of Business Mix in Mount Vernon (all districts)		
Business Type:	Count	Percentage
Retail	44	33.3%
Service	22	16.7%
Professional/Office	20	15.2%
Financial/Banking	7	5.3%
Eating and Drinking Places	9	6.8%
Entertainment / Fitness	11	8.3%
Manufacturing, Warehouse	4	3.0%
Auto, Truck, Ag Related	5	3.8%
Non-profit, Church	6	4.5%
Public/Governmental	4	3.0%
<b>Total</b>	<b>132</b>	<b>100%</b>

It should be noted that out of approximately 100 employers in Mount Vernon, less than 10% might be considered businesses that are related to a national / regional chain. The preponderance of non-chain related or locally owned, independent businesses in Mount Vernon represents a powerful brand that should be emphasized in marketing as well as business attraction.

As American workers change jobs more frequently than ever, loyalty to single large employers is decreasing, and interest in entrepreneurial activity is increasing. With the combination of a tradition of independent ownership, attractive lease rates, and renewed interest in locally sourced offerings, Mount Vernon could stand to capitalize on the concept of new businesses forging their own identities.

## Leasing and Sales Data

Data on Mount Vernon leasing rates and sales volume collected through the business survey provides key economic data that can be shared with potential business prospects and investors considering opportunities. The data should also be used as a benchmark to measure changes and progress stemming from enhancement and economic development initiatives in the business districts.

Survey results indicate that 61% of respondents own the property in which the business is operated. Survey results on those paying to use space (rent) indicate that annual rent per square foot expenses for spaces in the district tend to be concentrated in the less than \$10.00 per square foot. About one third of those paying rent, have rates in excess of \$10 per square foot. Half of the square footage rent amounts include utilities. Those respondents reporting not applicable either indicate that they own the property or did not compute the value of rent per square foot.

<b>Q.15: What is your annual rent per square foot expense? ((Monthly Rent x 12) ÷ Square Feet Occupied)</b>		
<b>Response</b>	<b>Count</b>	<b>Percentage</b>
A. Less than \$6 per square foot	15	28.8%
B. \$6 to \$8 per square foot	8	15.4%
C. \$8 to \$10 per square foot	12	23.1%
D. \$10 to \$12 per square foot	6	11.5%
E. \$12 to \$15 per square foot	3	5.8%
F. \$15 to \$20 per square foot	5	9.6%
G. \$20+ per square foot	3	5.8%
H. Not Applicable	48	
<b>TOTAL</b>	<b>52 / 100</b>	<b>100.0%</b>

Survey results show that annual sales per square foot are in a range less than \$50 to values in excess of \$400 per square foot, with 62 businesses (38% of respondents, not including "Not Applicable" respondents) reporting sales figures within that range. The highest concentration from the sample (23.7%) fell in the \$50 to \$100 per square foot. Based on the limited survey sample and by subjective calculations, median annual sales per square foot are estimated in a range of \$200 to \$250 per square foot on average. The figures appear comparatively low based on spending profiles by category for residents in the local drive time area and the consumer survey results that indicate a significant amount of local spending / shopping. It is possible that a broader survey sample could yield a different result.

<b>Q.17: What is your annual sales volume per square foot? (Gross Annual Sales/Revenues ÷ Square Feet Occupied)</b>		
<b>Response</b>	<b>Count</b>	<b>Percentage</b>
A. Less than \$50 per square foot	8	21.1%
B. \$50 to \$100 per square foot	9	23.7%
C. \$100 to \$150 per square foot	3	7.9%
D. \$150 to \$200 per square foot	6	15.8%
E. \$200 to \$250 per square foot	1	2.6%
F. \$250 to \$300 per square foot	2	5.3%
G. \$300 to \$400 per square foot	2	5.3%
H. \$400 + per square foot	7	18.4%
I. Not Applicable / Not Answered	62	
<b>TOTAL</b>	<b>38 / 100</b>	<b>100.0%</b>

# OPPORTUNITIES

---

## Retail Uses

Market research findings provide general direction for various retail business types and merchandise lines that could be prime candidates and appropriate for expansion and recruitment in the Mount Vernon business district. Retail categories, subcategories and product lines which, based solely on the analysis of ESRI data, might represent some of the best and most immediate opportunities for growth and expansion include:

- ▶ Full-service restaurants
- ▶ General merchandise stores
- ▶ Furniture stores
- ▶ Auto parts, accessories & tire stores
- ▶ Florists
- ▶ Specialty food stores
- ▶ Electronics & appliance stores
- ▶ Other miscellaneous store retailers
- ▶ Shoe stores
- ▶ Sporting goods/hobby/musical instruments

When compared to the customer survey question “What business or attraction would make them come to Mount Vernon more often?” the desired businesses would include:

- ▶ General and full service dining including a bakery, brewpub, fine dining and fast food
- ▶ Specific retail offerings such as books, sporting goods, crafting and hobby goods and gifts
- ▶ Specialty food and beverage stores
- ▶ Clothing of all sorts including shoes
- ▶ General merchandise stores

In another consumer question “What have you purchased on the internet within the last three months?” respondents indicated that they purchased Books most often followed by Gifts and Women’s Clothing.

The business survey question “What type of new businesses or attractions, located in Mount Vernon, would help your business and /or have the best chance to succeed?” respondent’s answers include:

- ▶ General and full service dining including a bakery, brewpub, fine dining and fast food
- ▶ Specific retail offerings such as books, sporting goods, crafting and hobby goods, gifts, farm supplies
- ▶ Light manufacturing / industrial growth

Business types and merchandise lines that might be considered primary targets and candidates for expansion and recruitment, based on the District’s existing business mix, trends in the marketplace and related findings from local input, consumer and business surveys, and ESRI retail data and the accompanying sales surplus & leakage analysis performed as part of this study include:

- ▶ Expansion of opportunities for dining
- ▶ Merchandise offerings including books, sporting goods
- ▶ Introduction of a general / discount merchandise retailer into the district

---

## Food Services & Drinking Places (NAICS 722)

Study Area Sales Surplus/(Leakage) Estimates	5 Minutes	10 Minutes	20 Minutes
722: Food Services & Drinking Places	\$5,851,203	\$5,830,633	\$8,138,339
▶ 7221: Full-Service Restaurants	(\$970,551)	(\$1,554,460)	(\$6,351,508)
▶ 7222: Limited-Service Eating Places	(\$7,629)	(\$1,043,406)	\$5,402,768
7223: Special Food Services	\$6,854,271	\$8,671,796	\$9,359,513
▶ 7224: Drinking Places (Alcoholic Beverages)	(\$24,889)	(\$243,297)	(\$272,431)

▶ *Indicates targeted subcategory/lines*

Survey Frequency	Intercept	Business
Count – Percentage	117 – 39%	27 – 38%

### Notes:

The district has a reputation for quality dining and displays destination oriented qualities, characteristics and features. There is a desire expressed by consumers to expand dining opportunities beyond current offerings including bakery, brewpub, and ethnic foods. Evening and nighttime establishments might feature various genres of music and venues for local artists. Décor and themes might feature local art, history and heritage. The population within the all drive time areas spends a higher proportional amount on dining.

---

## Miscellaneous Store Retailers (NAICS 451)

Study Area Sales Surplus/(Leakage) Estimates	5 Minutes	10 Minutes	20 Minutes
451: Sporting Good, Hobby, Book and Music Stores	(\$540,324)	(\$1,166,101)	\$8,878,746
▶ 4511: Sporting Goods/Hobby/Musical Instrument Stores	(\$470,127)	(\$950,673)	\$12,085,349
▶ 4512: Book, Periodical, Music Stores	(\$70,197)	(\$215,428)	(\$3,206,603)

▶ *Indicates targeted subcategory/lines*

Survey Frequency	Intercept	Business
Count – Percentage	45 – 15%	11 – 10%

### Notes:

Opportunities in the sporting goods category would likely capitalize on the health and fitness movement (and might include health and fitness services and facilities) and the existing and expanding trail systems (i.e., bicycles – rentals, sales and service – and bicycling, running and walking gear). Another consideration for sporting goods might focus on custom team apparel and convenience items.

Consumers and business survey support product lines that include books and printed material. Books are reported as the item most often purchased by consumers on line. Product integration into a complementary business might help to fill the demand for this type of product within the district.

Another immediate opportunity might be focused in hobby, arts & crafts related merchandise lines and gallery-style uses to capitalize upon the history, arts & culture and environment recognized by survey respondents. Expressed demand for arts, hobbies and crafts-related businesses, uses and lines might provide opportunities for new entries, or opportunities for existing businesses and attractions to expand or add complementary merchandise lines.

---

### General Merchandise Stores (NAICS 452)

Study Area Sales Surplus/(Leakage) Estimates	5 Minutes	10 Minutes	20 Minutes
452: General Merchandise Stores	(\$6,615,205)	(\$13,067,359)	(\$6,839,902)
4521: Department Stores	(\$2,643,345)	(\$5,214,510)	(\$9,569,245)
▶ 4529: Other General Merchandise Stores	(\$3,971,860)	(\$7,852,849)	\$2,729,343

▶ *Indicates targeted subcategory/lines*

Survey Frequency	Intercept	Business
Count – Percentage	10 – 3.4%	7 – 6.3%

**Notes:**

Survey results show an interest in having a retailer that provides a variety of general merchandise. The district is void of a retailer that is specifically in this market. There are limited general offerings available at other establishments

---

### Miscellaneous Store Retailers Stores (NAICS 453)

Study Area Sales Surplus/(Leakage) Estimates	5 Minutes	10 Minutes	20 Minutes
453: Miscellaneous Store Retailers	(\$669,277)	(\$1,556,190)	\$1,476,129
4531: Florists	(\$28,960)	(\$56,907)	\$127,302
▶ 4532: Office Supplies, Stationery, and Gift Stores	(\$152,116)	(\$373,907)	(\$1,156,469)
4533: Used Merchandise Stores	\$51,024	(\$25,799)	(\$1,491,759)
4539: Other Miscellaneous Store Retailers	(\$539,225)	(\$1,099,577)	\$3,997,054

▶ *Indicates targeted subcategory/lines*

Survey Frequency	Intercept	Business
Count – Percentage	14 – 4.7%	12 – 10.7%

**Notes:**

Consumer survey results indicate a support for certain subcategories, and generalized responses indicating a preference for general retail and/or unspecified “boutique” and “specialty” shops, suggest this category should be targeted for expansion and recruitment. Capitalizing on the vibrant art culture could be an offering for a retailer and introduce an alternative type of retail experience.

## Office and Service Uses

The office and services sectors play an important role in generating consistent traffic for the business district. Trends and projections point to a continuing modest increase in population and number of households in the area through 2018 would indicate steady demand for services. Certain trends could also serve to essentially change the behavior of the market and generate demand for additional office and service uses including:

- Continued transition to a service-oriented society.
- Increasing demand for personal care and medical services related to the “Graying of America” phenomenon.
- An increase in both the “live here” and “work here” populations that could result in a demand for services within the district.

Office and services uses in the downtown Mount Vernon area already play an important role in the district’s economy and sense of vitality and, predictably, will continue to do so in the future. These uses should continue to be encouraged to locate within the district and, where appropriate and applicable, Main Street and community development partners should work to locate these uses in buildings and spaces that are conducive to maintaining a strong sense of retail vibrancy throughout the Main Street district.

## Housing

Consumer survey results lend support for prospects to develop new housing of various styles in the community of Mount Vernon. In the consumer survey 167 respondents indicate they already live in Mount Vernon. Of the 125 that do not currently live here, 84 consumer survey respondents (67%) indicated “Yes” or “Maybe” when asked if they would consider living in Mount Vernon – Lisbon.

Consider living in Mount Vernon – Lisbon?	Count	Total Percent	Non-resident Percent
Already live here	167	57.2%	--
A. Yes	63	21.6%	50.4%
B. Maybe	21	7.2%	16.8%
C. No	41	14.0%	32.8%
<b>Total</b>	<b>125 / 292</b>	<b>100.0%</b>	<b>100.0%</b>

Those indicating that they would consider living in Mount Vernon - Lisbon with a “yes” or “maybe” responses expressed interest in a variety of housing styles and in both rental and owned units. Of those who expressed interest in living Mount Vernon - Lisbon, 70% indicated they would prefer a single family home and 83.5% would prefer to buy their residence.

Would you prefer to:	Total Sample	
A. Rent	15	16.5%
B. Own	76	83.5%

Housing options considered	Total Sample	
A. Single Family	63	70.0%
B. Condominium or townhouse	7	7.8%
C. Senior Living	3	3.3%
C. Apartment / Loft	17	18.9%

The overwhelming interest expressed by consumer survey respondents indicates the desire for development and expansion of housing options area. The best prospects for new development areas continue to be on west and north/east areas of Mount Vernon and in the established developments in Lisbon. Development may also be considered as part of the expansion planning on the southern edge of Mount Vernon as the plans for the bypass and related zoning is established. The demographic profile of those desiring to live in Mount Vernon-Lisbon indicates two groups:

- ▶ Young (<45) earning less than \$100,000 annually with an average of \$55,000). The younger group had average household size of 2 to 4 people.
- ▶ Mid-life (> 54) earning more than \$50,000 annually with an average of \$73,000. The Mid-life group has a household size of 2 on average.

These demographics might indicate the need for housing opportunities that address the needs of a young family just beginning to climb on the earning scale and also the needs of an empty nester or retiree earning a higher than average wage therefore capable of spending more on housing and amenities.

### Demographic Profile for Potential Downtown Housing Market

# FIRST STEPS IMPLEMENTATION STRATEGY

---

The Mount Vernon Market Study provides a snapshot of the business area today and explores opportunities for the future. The time frame for planning and implementing projects based on findings and opportunities identified as part of this study could extend for multiple years

Because commercial business district redevelopment occurs within a dynamic environment, no set of specific implementation steps can remain valid for such a long time. Even in the short term, changing economic, social, political and cultural conditions may dictate a different sequence of events. Some projects might be implemented earlier if the right set of opportunities present themselves, or the community may determine that a project should be tabled as new opportunities emerge and others take priority. Because of these limitations, an implementation strategy can only be a general guide for implementing key aspects of the study.

The First Steps Implementation Strategy summarizes and prioritizes projects and activities that, undertaken as part of a comprehensive and incremental approach, will advance long-term goals for Mount Vernon. Key market study findings and implications are summarized and potential Action Steps are organized in the areas of Business Improvement, Promotion, Design and Organization – a format consistent with the Mount Vernon – Lisbon Community Development Group’s Main Street Organization structure and its 4-point approach. By the very nature of the market study, implementation strategy actions are primarily focused in the areas of economic restructuring and promotion.

The list of potential projects and actions contained in this summary report is neither exhaustive nor exclusive. The projects and actions proposed for implementation area considered a “starting point” for the development of a more comprehensive strategy that is the product of market analysis findings, local knowledge, and the ongoing work of MVL CDG Main Street staff and volunteers, partners, local business persons, community leaders and residents working together.

## Priority Action Steps – Community Development Board

Action	Description	Priority Level
1	Develop position statements on key areas under direct control of City of Mount Vernon	0

## Priority Action Steps – Organization

Action	Description	Priority Level
1	Continue to encourage participation in Mount Vernon planning processes. Use information and direction gained from the market study to refine policies, strategies and concepts, and to fine tune and prioritize Organization Committee operations and advocacy efforts.	0
2	Maintain an aggressive, ongoing public relations program to publicize plans, projects and results stemming from the market study, the strategy plan, and the annual work plan.	0

### Priority Level Key:

0 = Immediate and/or Ongoing      1 = Within 1 Year      2 = Within 2 Years      3 = Beyond 2 Years

## Priority Action Steps – Economic Restructuring

Action	Description	Priority Level
1	Prepare and distribute the four-page summary version of the market study to Mount Vernon business and property owners and city officials including comprehensive planning committee for economic development and land use	0
2	Post the market study and summary version on the <a href="http://www.VisitMVL.com">www.VisitMVL.com</a>	0
3	Continue to develop business promotional materials, working with the Promotions committee and web subcommittee, to enhance <a href="http://www.VisitMVL.com">www.VisitMVL.com</a> as a tool for passive and active recruitment of targeted business prospects.	0
4	Identify and assist businesses in succession planning by using resources and facilitating access to assistance available through Main Street Iowa and other local, regional and state resources.	0
5	Conduct a training event series: Topic one using a web site for product / service research. Topic two in the series, commerce. Topic three, using Facebook / social media to drive customer communication / advertising. Topic four, implications of web based business.	1
6	Work with City Partners to define expectations for uptown district business expectations including time to occupy / activate a store front, business mix in the district and incentives for improvements or expansion	1
7	Work in partnership with the City (and other community & economic development organizations) to establish a long range plan for land use plans and to promote and pursue appropriate development opportunities including defining incentives. Consider opportunities for housing opportunities as well as business expansion.	2
8	Based on long term strategy plan for business and housing use, provide guidance for the preferred placement of business types and targeted business types for expansion and recruitment.	3
9	Identify and actively recruit specific business types and prospects based on business types identified in the market study and the availability of appropriate spaces.	3

### Priority Level Key:

0 = Immediate and/or Ongoing	1 = Within 1 Year	2 = Within 2 Years	3 = Beyond 2 Years
------------------------------	-------------------	--------------------	--------------------

### Priority Action Steps – Promotion

Action	Description	Priority Level
1	Assess local appeal and effectiveness of marketing activities by studying promotion and marketing-related information and findings resulting from the market study. Consider the audience characteristics of the tapestry segments of Midland, Cozy and Comfortable, Metropolitans, Exurbanites, and Green Acre and assess events and marketing activities for consistency and effectiveness in local advertising and social media for audiences within the 10 minute drive time area. Recognize the importance / significance of local shopping. Key attributes valued as equal or higher than other places from the consumer study include; Attractiveness, Cleanliness, Customer Service, Quality of product / service.	0
2	Extend regional appeal through a developed marketing plan. Considering the audience characteristics of the tapestry segments of the groups above plus "Up and Coming Families", "College Towns", "Rustbelt Retirees". Assess marketing activities for consistency and effectiveness for audiences outside the 10 minute drive time area.	0
3	Review the existing events calendar. Work and support efforts to enhance and maintain existing festivals and events and to introduce new events and activities – or new event components – which are consistent with marketing strategies.	1
4	Support, promote and facilitate downtown district cooperative advertising, cross-marketing, and Internet and social media marketing efforts.	1
5	Work with business owners to drive to more uniform workday hours and to offer a consistent evening shopping timeframe.	2

**Priority Level Key:**  
 0 = Immediate and/or Ongoing      1 = Within 1 Year      2 = Within 2 Years      3 = Beyond 2 Years

### Priority Action Steps – Design

Action	Description	Priority Level
1	Continue and maintain ongoing historic preservation education efforts designed to enhance the community's awareness of, and appreciation for, the preservation of downtown historic architecture and resources. Continue selective CDG investment through the BIG grants and assistance in preparation of applications to other funding sources.	0
2	Work with the City to ensure adequate and proper maintenance of the city's appearance and cleanliness. This could include a winter and post winter maintenance plan.	1
3	Work with the City to ensure adequate and proper maintenance of streetscape, furnishings and public spaces including the roundabouts. Use input and direction from survey results to address potential maintenance needs and property issues.	1
4	Address parking and traffic flow issues in an attempt to best meet the needs of the downtown's many users (customers, residents, visitors, employees, etc.)	2

**Priority Level Key:**  
 0 = Immediate and/or Ongoing      1 = Within 1 Year      2 = Within 2 Years      3 = Within 3 Years

# CONCLUSION

For the commerce of Mount Vernon and Lisbon, the completion of this market study provides data to support moving in a more decisive direction that is consistent with the consumer attitude and business desires. The market study and the resulting actions will guide the work of Mount Vernon – Lisbon Community Development and its committees in the coming years.

The market study involved input from 100 businesses and almost 300 residents. The study and resulting report was prepared by volunteer efforts from all Mount Vernon Lisbon Community Development Group committees. The guidance from Main Street Iowa and Downtown Professionals Network was invaluable to the process. For all of the efforts, Mount Vernon – Lisbon Community Development Group is extremely grateful.

The market study will be a living changing document that will change as the stakeholders begin to work together on actions. The data provided in the consumer and business survey will provide the local back story necessary to interpret the ESRI marketplace data. Either source of data would be less complete without the other.

The market study process serves to help identify present-day priorities, existing and looming challenges, and immediate and emerging opportunities, it cannot, and does not pretend to anticipate tomorrow's priorities, next year's unexpected challenges, or exciting and unanticipated opportunities still over the horizon. The intent of releasing the data is that the entire community and future residents and businesses will use the information for betterment of the cities of Mount Vernon and Lisbon, Iowa.
